

# WOPM One Page Abstract Template

(Title Should Be Centred 14 pt Bold Type, with Title Case Formatting – Elements and Acronyms Should Be Capitalized)

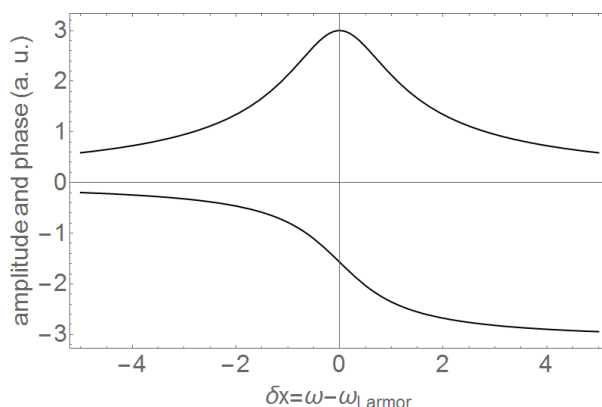

John Cesium<sup>1</sup>, Jack Rubidium<sup>2</sup>, Jane Helium<sup>1,2</sup>

1. Institute of Alkalies, University of Atoms, Street address 5, 01234 City, Country

2. Another Institute, Another affiliation, Another street address 1, 12345 Town, Another Country

This is a sample document format for the one page abstract for submissions to the **Workshop on Optically Pumped Magnetometers (WOPM-2017)**. This document should be provided in Microsoft Word format **AND** in PDF format. Paper size should be A4 format (210 mm × 297 mm). Margins should be set for a 2.5 cm top, bottom, left, and right. For text fonts: use only 10pt Times (roman, bold or *italic*), and Symbol. Sans Serif Fonts such as Arial can be used in Figures. Include all equations, drawings, figures and references within the **one page limit**. Avoid asterisks, acknowledgements, job descriptions or footnotes. **Do not add page numbers.**

Please be concise in your presentation, highlighting what is novel and original about your submission. Simple equations should be included in-line wherever possible, whereas more complex expressions should be centred and numbered if there are several. Figures should be relevant to the submission and preferably centred as shown below. They should be placed as close as possible to where they are mentioned in the text. Placing subfigures side-by-side is a convenient way to include multiple results within the one page limit. The figures must be greyscale. Figure captions should be centred beneath figures and in an 8-point font. Figure captions should be indented at least 1 cm on both sides and justified on both right and left sides.

**Fig. 1** The abbreviation “Fig.” with number should appear first (in bold) followed by the figure caption.

References should appear at the end of the article in the order in which they are referenced in the body of the paper. The font should be 8 point, and the references should be aligned left. Authors are listed first, followed by the full title in *italic*, the journal’s title abbreviation, the volume number in bold, page number, and the year in parentheses. Within the main text, references should be designated by a number in brackets [1], and they should precede a comma or period [2]. Two references cited at once should be included together [2, 3], separated by a comma, while three or more consecutive references should be indicated by the bounding numbers and a dash [1-3].
